

**\*\*\*Press Release\*\*\***

Envelope Superstore announces the addition of the all-new W&D i-Jet 3, four color, high-speed, inkjet envelope press. The state-of-the-art digital press with the Memjet Durabolt production class print engine is a game changer for the envelope print market. With this latest addition to our print arsenal, Envelope Superstore and its sister company, Northeastern Envelope, possess the most off-line offset and digital print capabilities in the envelope industry. W&D will be installing this new press in early January of 2024. We welcome our fellow PIAG Members to give Steve Hart a call on our toll free number, 1-800-554-1179, ext. 7014 for a personalized demonstration in our Hiram, Georgia facility.

Please note some of the new and improved attributes of the i-Jet3.

- New wider 12.77" print head
- Full bleed capability
- New water-resistant, environmentally friendly, aqueous based pigmented inks
- Highest resolution of 1600 x 1280 dpi delivers #10's at 36,000 per hour
- Multiple RIPS for high-speed variable data processing
- Integrated Xitron color management and control
