

Mike,

We just want to say thank you so much for taking time out of your busy schedule to come teach us about the water cycle! We had so much fun learning about all the different ways we get water, how water moves, and how we can keep our water clean. The visual aids were so helpful to see the cycle! That was our favorite part. Thank you so much again it was an amazing experience.

03-05-15

Thank you!
