

Registration Form

NOT FOR TESTING BACKFLOW ASSEMBLIES

Training Overview

The Class I (Program Administrator) Cross-Connection Certification and Recertification training provides the necessary information to establish a cross-connection program. The attendee will learn how to:

- ◆ Recognize a potential cross connection
- ◆ Determine potential hazard to water system
- ◆ Determine the potential type of backflow associated with a given cross connection
- ◆ Determine the correct backflow preventer to protect against a given situation
- ◆ Determine what is needed in an ordinance/ bylaw to provide a water system with the authority to administer a program
- ◆ Create ideas for providing public education
- ◆ Research plumbing code or other manuals to support decisions made in requiring the proper protection
- ◆ Maintain and distribute records as required by the Division of Drinking Water

0.1 CEU for each hour of training
DOPL core credits available through Division of Drinking Water for plumbers (12) and contractors (6)
