

# WATER TRAINING

## FREE WATER CEU TRAINING

Thursday, August 13, 2026 | Virtual Only Class

0.6 Water CEUs Available | 9 AM-4 PM

### TIME

### AGENDA ITEM

**9-10:30 AM**

**Hydrants: O&M** | *Shane Perkins, Cache Valley Hydrants*  
Shane will cover the proper operation, inspection, and maintenance of fire hydrants to help ensure reliability and performance within water distribution systems. Participants will learn best practices for routine maintenance, troubleshooting common issues, and extending the service life of hydrants while maintaining system safety and compliance.

**10:30 AM-12 PM**

**PFAS** | *Lauren Collins, ECOLAB*  
Lauren will provide an overview of per- and polyfluoroalkyl substances (PFAS), including their sources, potential health and environmental impacts, and current regulatory considerations. Participants will gain a better understanding of PFAS challenges facing water systems and learn about monitoring, treatment, and compliance strategies related to these emerging contaminants.

**12-1 PM**

**LUNCH**

**1-2:30 PM**

**Apply with a Critical Eye** | *Janell Braithwaite, RWAU*  
Janell will be going over how to apply for funding with this hands-on training. She will be going over how to prepare and submit applications as well.

**2:30-4 PM**

**Asset Management 101** | *Janell Braithwaite, RWAU*  
Janell will be going over best practices when it comes to asset management for systems small and large. She will use Utah-based examples as well.
