**ARMSTRONG CEILING SOLUTIONS TO INCREASE PRICE OF MINERAL FIBER, FIBERGLASS
CEILING PANELS, AND SUSPENSION SYSTEMS**

Geographic Coverage: US – Retail

LANCASTER, PA – Effective Thursday, May 1, 2026, Armstrong Ceiling Solutions will initiate a 5% price increase on all mineral fiber panels and ceiling planks, 7% on all fiberglass ceiling panels and 8% on all suspension systems shipped on or after May 1, 2026.

These price increases are driven primarily by energy costs and raw material inflation, with energy remaining volatile and raw material inflation continuing across several core inputs, including fiberglass scrim, fiberglass board, steel, aluminum, paint and packaging.

For longer-term future quotes, we suggest the following pricing:

- *Additional 5% increase for quotes issued on or after August 3, 2026*
- *Another additional 5% increase for quotes issued on or after February 1, 2027*

This Pricing Bulletin and the above guidance are based on currently available information and conditions. Consistent with past practices, we will provide updated pricing information in the form of list pricing, bulletins or other notifications, as appropriate, as additional information becomes available. As always, you remain free to quote, price and contract at whatever pricing you may choose in your discretion. Please always feel free to contact your local area manager with any questions or requests for assistance.

We appreciate and thank you for your business.
