SBCA™

SBCA

Regular Member: Any firm, partnership or corporation engaged in the business of the manufacture and sale of trusses, wall panels, related structural components and/or subcomponents.

Dues Amount: Regular member dues are based on your total sales volume for structural building components manufactured at all of your member locations, that is, the most current year's sales of roof and floor trusses, wall panels, related structural components and/or subcomponents. Please refer to the chart at right to find your dues amount. [Note: all of this information is kept strictly confidential.]

If you are a truss plate manufacturer associate member, please contact staff.

Associate Member: Any firm, partnership or corporation engaged in the business of supplying products, equipment, machinery or services to manufacturers of roof and floor trusses, wall panels, related structural components and/or subcomponents for use in their business, and who is interested in furthering the purposes of SBCA.

Annual Dues: \$852

Professional Member: Any individual not actively connected with a business that is eligible for membership as a Regular Member or Associate Member, and who is interested in furthering the purposes of SBCA. Members in this category cannot be engaged in a business that primarily derives income from the component industry/framers.

Annual Dues: \$174

Design Professional Member: Same qualifications as a Professional Member (above). Membership includes a Design Professional Subscription with free technical resources including: BCSI, CFSBCSI, Metal Plate Connected Wood Truss Handbook, access to 30+ Component Technology Workshops for continuing education credit, an online resource library and much more!

Annual Dues: \$288

Chapter Membership SBCA

Chapters operate at the grassroots level and are ideal for networking and education. By working together through chapters, members are able to:

- Have more clout as a unified group than as individuals acting alone
- Produce results more effectively working together
- Provide education and plant tours to building and fire officials, contractors, designers and specifiers, schools and legislators
- Stay informed of, and influence, local ordinances and building code changes
- Provide promotional materials with consistent messages

The benefits of working collectively through a chapter are apparent and many goals are achieved more easily as a chapter than by individual companies.

All component manufacturers must join SBCA in order to join a local chapter.

All SBCA members are encouraged to join a chapter in their area.

Dues Amounts vary by chapter; see the chart at right.
