The Life of Your Commercial Roof

The Beginning

Whether you're inheriting a roof or you've just replaced one, we conduct routine maintenance and inspections to maximize its usable life for years to come.

Protecting What Matters.

A coating is about more than the roof — it protects everything underneath. A commercial roof coating helps you stay proactive in keeping your building leak- and damage-free.

Weathering the Storm

When there's a problem, Lionheart comes to your site to provide expert advice and an evaluation that helps you understand all your options. And if you'd like to run a repair through insurance, we can help with that too.

When It's Time to Replace

Every commercial roof eventually reaches the end of its life. When that day comes, we'll tell you straight and handle the replacement right — and if it's not quite there yet, we'll do everything we can to extend it.

Surpassing Expectations

The Lionheart team is your go-to for commitment, excellence, and superior roofing knowledge. With decades of experience, unmatched service, and quality construction, it's no wonder property owners trust Lionheart with their commercial roofs.
