pg 13: Creation of an Online Competitive Bid Repository within EPC Recently, OI has held discussions with both USAC and WCB related to our previous recommendation regarding the creation of an online competitive bid repository within EPC. Both WCB and USAC are currently assessing this recommendation. We will continue to pursue this matter and provide our input when requested. It is our hope USAC will be able to create this repository during late 2017 or early 2018 in connection with the additional changes to EPC anticipated by USAC.

Just FYI:

-- As of Feb. 25, there were 874 Form 470s filed for wi-fi hotspots. (302 from libraries.)

-- As of Feb. 25, there were 45 Form 471s filed for wi-fi hotspots. (22 from libraries.) The 471 filing deadline is March 26.

Would it be published publicly?

15:00:19 -:

Of interest, in the "Eyes" bill the definition of a social media platform is only about 8 short lines long. What is NOT covered is over 2 pages in length, mostly very specific exceptions. The bill does allow a teacher to use a social media platform for educational instruction.
