

SPA STRATEGIC FRAMEWORK 2022-2027

As the 2018-2021 SPA Strategic Growth Plan approached its end, SPA Leadership began evaluating how well it achieved the goals and planning for a future with the foundation this original plan created. With structure and facilitation provided by Cynthia Mills, Founder, President, and CEO of The Leaders' Haven, and the work of SPA members, Leaders, and Staff, the following 2022-2027 SPA Strategic Framework was developed.

This Strategic Framework identified SPA's overarching goal through the creation of a VISION, clarified the way that we will achieve this vision through the clarification of our MISSION, as well as defined how we will work towards the realization our vision and mission through the declaration of our VALUES. This Strategic Framework will evolve as we evolve, and we welcome your reactions and thoughts to what has been developed.
