

Rorschach Supplementary Scales Training

Four half-day workshops on Zoom

(Nov. 6, Nov. 13, Nov. 27 & Dec. 4, 2025)

Presenter:

Jason M. Smith, PsyD, ABPP (USA)

Target groups:

- Licensed psychologists with training and experience in using the Rorschach CS/CS-R or R-PAS
- Psychology students with training and experience in using the Rorschach CS/CS-R or R-PAS
- English speakers (the workshop will be carried out in English)

Organized by:

Muzio Psychological Services Inc. (Dr. Emiliano Muzio)

c/o Terapiatalo Sointu

Döbelninkatu 2

00260 Helsinki, FINLAND

Business ID: FI28910049

Content and Program

A manual published concurrently with the recently published manuals on the Rorschach Comprehensive System—Revised (CS-R: Exner, Adronikof & Fontan, 2022; Exner, Fontan & Adronikof, 2022) and written by Smith, Weinberger-Katzav and Fontan (2022) allows Rorschach users to deepen their understanding of the clients they assess by presenting the scientific foundations, coding, and interpretation of some of the most widely used and researched supplementary scales for the Rorschach. These include the Rorschach Oral Dependency Scale (ROD: Masling, Robie & Bornstein, 1967; Bornstein & Hopwood, 2017), the Extended Aggression Scores (EAS: Gacono, 1988, 1990), and the Gacono Aggressivity Cluster (GAC: Gacono & Smith, 2022), the Mutuality of Autonomy Scale (MOA: Urist, 1977), the Ego Impairment Index (EII-2 & EII-3: Perry & Viglione, 1991), the Rorschach Defense Scales (RDS: Cooper, Perry & Arnow, 1988), and the Reality-Fantasy Scale (RFS-2: Tibon-Czopp, Appel & Zeligman, 2016).

The 4 half-day training is designed for psychologists specialized in the CS (Exner, 2003) or CS-R, but is also open to psychologists working with the R-PAS (Meyer, Viglione, Mihura, Erard & Erdberg, 2011). The first 3 half-days will focus on presenting the supplementary scales. The last half-day will focus on coding practice using a clinical case, which will also be interpreted to illustrate the use of the scales in clinical and forensic assessment.

The half-day workshops will be carried out on **November 6, 13 & 27, and on December 4, 2025, from 14:30 PM to 17:30 PM (Finnish time: EET)**. This means the training takes place in the morning in the US. You can check your local time here: [Time Zone Converter – Time Difference Calculator](#).

About the presenter

Dr. Jason M. Smith is a Licensed Clinical Psychologist who is currently a Chief Psychologist at a female prison in the United States where he is responsible for the treatment, assessment, and management of female offenders. He is also the co-founder of Maverick Psychology Training and Consultation PLLC with Carl Gacono and Ted Cunliffe. With his co-authors, he has published on female offenders/psychopathy as well as theoretical Rorschach articles. Recently, with Carl Gacono and Ted Cunliffe, he was the senior author of *Understanding Female Offenders: Psychopathy, Criminal Behavior, Assessment, and Treatment*. He is on the Board of Assessors for Rorschachiana, and he has received board certification from the American Board of Professional Psychology (ABPP) in Clinical Psychology. Dr. Smith has presented his research and workshops on assessing and treating female offenders both nationally and internationally. Dr. Smith was awarded the APA Division 18 Criminal Justice Section Outstanding Dissertation Award (2014) and the SPA John E. Exner Scholar Award.

Pricing and Registration

Early Bird registration for registration before October 3, 2025:

480 € + VAT 25.5 %

For registrations after October 3, 2025:

560 € + VAT 25.5 %

To register for this series of workshops, please write to Dr. Emiliano Muzio (emiliano@muzio.net) with a brief description of your training as a psychologist and your training and experience in using the Rorschach.

Registrants are required to have sufficient training and experience in using the CS, also if primarily trained in using the R-PAS. If you qualify for this training, an invoice in PDF-format including all necessary payment details will be sent to you by email.

Cancellation Policy

The registration is binding. However, notification of cancellation for registration will receive full refund of registration fees until October 3, 2025. Cancellations for registration after this date will not receive any refund of registration fees. However, in case of a cancellation, registrants may participate in any future equivalent training organized by Muzio Psychological Services Inc., if such training is organized, for no additional charge.

We reserve the right to deny participation to any applicant or cancel the scheduled training at any time for any reason. In the event of cancellation by the organizer, registration fees will be returned to registered participants.

For more information, please contact Dr. Emiliano Muzio by email at emiliano@muzio.net
