

Pace University Psychology Department

Introducing the Rorschach Comprehensive System-Revised (CS-R): Theory & Practice (Two-Day Workshop)

The Psychology Department of Pace University is honored to host an "in-person" two-day workshop to be conducted by Dr. Patrick Fontan, President of the International Rorschach Institute (rorschach-institute.org) and co-creator of the CS-R and CHESSES-2 Rorschach Scoring Program.

Dates:	Friday March 3 rd (9:00 to 5:00) and Saturday March 4 th (9:00 to 5:00)
Location:	Psychology Department Pace University, 52 Broadway New York, NY 10004
Fees:	General Admission: \$225.00 Early Bird Registration (until February 18 th) (Regular Price After February 18th: \$395.00)
CE Credits:	12 CE credits:*

*The ***American Psychological Association*** and the ***New York State Board of Professional Psychology*** approve the Pace University Psychology Department to sponsor continuing education for psychologists. Pace University retains responsibility for this program and its content. This conference provides psychologists with **12** hours of continuing education (**12 APA or 12 NY CE Credits**).

Description: Rorschach Workshops in conjunction with the International Rorschach Institute have just published the first revision of the CS since 2003 (Exner, Fontan & Andronikof, 2022). The CS-R continues the long tradition of using Exner's CS in an empirically validated fashion, while introducing some new scoring variables and psychometric changes but still allowing for considerable clinical flexibility as well as expansion and future research. The CS-R employs a new computer scoring program (CHESSES-2), which relies upon validated clinical cut-off scores, but also allows clinicians to compare protocols to national reference samples as well as clinical samples. The CHESSES-2 program automatically calculates some variables which have been validated since the previous CS version (e.g., Ego Impairment Index-3, Reality Fantasy Scale), but also allows users to enter coding variables that comprise supplementary scales (e.g., Gacano & Smith's Aggressive Content Scores, Weinberger-Katzav & Bornstein's Rorschach Oral Dependency Scale, Cooper, Perry & Arnow's Rorschach Defense Scales). However, such scales are still viewed as supplementary in nature and are not required for CHESSES-2 Input or CS-R Interpretation.

Materials: ***Workshop participants are strongly encouraged to purchase CS-R materials from Rorschach Workshops so that they have them at the conference.*** The registration fee does not include these materials, which may be obtained on the Rorschach Workshops website (rorschachworkshops.com). Once participants are registered for the conference, they will be provided with a code that will enable them to receive a **20% discount** for these workbooks.

Who should attend: Psychologists with some experience in administration and scoring of the Rorschach who wish to learn about the psychometric advances, new coding variables, revised and adjusted cut-off scores in the CS-R, and who are interested in using the CS-R in their assessment practice.

Registration: Use the following email address to request registration: psychologyCEcredits@pace.edu After you register, you will be mailed information concerning specific location and be provided with the code for a 20% discount on materials from Rorschach Workshops. If you experience problems with registration, please contact 212-346-1506

Pace University is located across from City Hall Park in Downtown Manhattan. It is accessible using the Path Train, City Hall/Brooklyn Bridge, Park Place, and Chambers Street Subway Stations and can be reached by way of the 2,3,4,5 A, C and R subway lines.
