- For the purposes of assessing membership dues, the term “unit” is defined as a rental space designed for occupancy by one or more tenants sharing a single kitchen or living room area. By way of example, a duplex would equal two units. The term “unit” shall not include units that are part of a homeowner’s association (HOA) managed by the Owner/Operator member; rather, “unit” shall only include rental units that are directly managed by the Owner/Operator as owner, or rental agent for the owner, of said rental unit.
- The Triangle Government Alliance (TGA) is a nonprofit advocacy organization that focuses on issues important to the rental housing community. TGA works on behalf of Triangle rental housing providers to raise awareness on issues that may potentially harm and adversely impact property owners. Corporate and personal contributions are welcomed. Help us continue to advocate for YOUR industry by contributing today!
- If you are an owner/investor but do not manage your properties, and instead have a management company overseeing, you would register as an Independent Rental Owner (IRO) and the management team would register as a Management Company.
- Unmanned is defined as having no manager on site at the community. If there is a shared office between multiple sites, this would be defined as manned. If there is a part-time staff, this is still considered manned.
- When there is more than one phase in a community, if there are different legal names and/or tax IDs, the phases must be registered as separate communities.
- If you are registering a Non-Profit company, Housing Authority, or other Government Assisted program, please contact our Director of Membership at vfranciosi@triangleptassn.org.
- If the Management Company operates less than 100 manned units, they must join as an IRO with the Apartment Community registered separately under the umbrella. This may need to be adjusted mid- year to reflect a different member type as the portfolio grows in the Triangle market.
