GENERAL MEETING SCHEDULE

Monday kicks off with our General Session at 1:00 p.m., featuring speaker Rene Whigham on the topic of Organizational Leadership. At 2:15 p.m., the Product Stewardship Issue Team will meet, followed by the Packager/Sodium Hypochlorite Council Meeting at 4:30 p.m. We'll wrap up the day with a Welcome Reception for first-time attendees at 5:30 p.m.

Tuesday begins with a hot breakfast, followed by morning meetings of the HESS and Transportation Issue Teams. After a 12:15 p.m. lunch, the Emergency Preparedness Issue Team and Producers' Member Exchange will convene in the afternoon. Be sure to join us at 6:00 p.m. for an off-site reception with cocktails and hors d'oeuvres to close the day.

On **Wednesday**, we'll start with Technical Sessions in the morning after the hot breakfast buffet. After lunch, Gwen Keyes will speak on the current regulatory environment. The afternoon includes the Packager/Hypochlorite Member Exchange, Transportation Member Exchange, and the Executive Committee Meeting. We'll conclude the week on Thursday with the CI Board of Directors' regular business meeting.

On **Thursday** the CI Board of Directors will meet at its regular business meeting.

WEATHER CONDITIONS

Mid to late September the temperatures range from the mid-70's to upper-80's during the day with a chance of rain.

SUGGESTED ATTIRE

Business casual attire is appropriate for both the meetings and social events.

FALL MEETING SPEAKERS

Rene Whigham, Vice President of Sustainability, Product Stewardship, and Productivity, recently retired from a chlor-alkali producer after a distinguished 35-year career.

Beginning in Technology Development and subsequently moving into Operations, Rene advanced through manufacturing management roles while working in mercury, diaphragm, and membrane cell facilities across Olin's network. After 17 years in manufacturing leadership, she transitioned to commercial operations as Director of Customer Service, where she led the integration of Order-to-Cash processes following Olin's acquisition of Pioneer Chemical. Rene continued to assume progressively higher responsibilities within the commercial

organization, including KOH Business Manager, Director and General Manager Bleach, Plant Operations & Pioneer Transportation, and Business Director – Caustic Soda. Following the acquisition of Dow's Blue Cube assets, her role expanded to Vice President – Global Chlor Alkali & Customer Services. In 2022, Rene transitioned to a corporate role encompassing responsibility for EH&S, Product Stewardship, Sustainability and Productivity.

Rene holds a B.S. in Chemical Engineering from West Virginia Institute of Technology and an M.S. in Chemical Engineering from the University of Virginia. She is married with two grown children and currently resides in Cleveland, TN. Her interests include outdoor activities, particularly hiking, gardening, and operating a cattle farm in Alabama.

Gwen Keyes is a partner at DLA Piper. Prior to her current practice, she spent more than twenty years in the public sector, serving as both an elected and appointed official at the state and local levels, as well as in various branches of the federal government. In her current role, Gwen advises a wide variety of business, institutional and organizational clients on all aspects of environmental policy, government relations, compliance planning, incident response, subsequent enforcement and litigation matters and special investigations for private and municipal clients. She also advises clients on environment, social and governance (ESG) issues and the impacts climate change can have on business operations.

TECHNICAL SESSIONS

Topics

- **Maintaining Readiness: Chlorine Emergency Kit Care**
- **Chloride Induced Degradation and Corrosion of Steel Reinforced Concrete**
- **Pamphlet 176 Unpacked: What You Need to Know**
- **Vaporizers in Gas Feed Systems: Basic Knowledge and Useful Tips**
- **Preparing for FRA Shipper Facility Inspections**
- **Chlorine Container Inspection, Maintenance, and Certification**
- **Inspections Required for FRP Storage Tanks and other FRP Assets**
- **Panel Discussion: Lessons from Weathering Hurricane Milton**

Please note, topics are subject to change.

DONT MISS IT!

Packaging/Sodium Hypochlorite Council - Mon. 9/15 - 4:30 - 5:30 P.M.

Location: HB Plant Salons A-B

The purpose of this meeting is to provide a forum for CI's Packager and Sodium Hypochlorite Producer Members to discuss items of business critical to their operations and share lessons learned and best practices. This is an open session.

MEMBER EXCHANGES:

Transportation Member Exchange - Tues. 9/16 - 1:30 - 3:00 P.M.

Location: HB Plant Salons A-B

This meeting is a round table format for CI members to more informally discuss various transportation-related issues and share their experiences with each other. This member exchange is an opportunity for CI members to have additional time to discuss issues that may or may not already be covered in the Transportation Issue Team meeting.

Producer Member Exchange** - Tues. 9/16 - 3:30 - 5:30 P.M.

Location: HB Plant Salons C-D

The Chlorine Producers' Member Exchange** is an opportunity for representatives of member companies to meet and discuss safety-related items of common interest, share best practices and generally discuss how certain safety program elements are addressed within their organizations. This meeting is not intended to be a lecture and/or training event but is instead expected to be an open dialogue. The session will be led by a chlorine producer participant. It is expected that all participants will come prepared to openly discuss, exchange information, and pose questions. This year's topics will be announced soon.

** This is a closed meeting, open only to individuals who work at chlorine production companies.

Packager/Hypochlorite Member Exchange

Weds. 9/17 1:30 - 3:00 PM

Location: HB Plant Salons C-D

The Chlorine Packager/Sodium Hypochlorite Manufacturers Member Exchange** is a discussion-based meeting of peers. During this session, CI members speak candidly about safety, security, and regulatory issues affecting chlorine packagers and bleach producers. Come with your experiences to share. This year's topics will be announced soon.

** This is a closed meeting, open only to individuals who work at chlorine packager or sodium hypochlorite manufacturers.

CI'S CORE VALUES

In all that we do we have an unwavering commitment to operate at the highest level. This commitment extends to:

MISSION STATEMENT

THE CHLORINE INSTITUTE EXISTS TO SUPPORT THE CHLOR-ALKALI INDUSTRY IN ADVANCING SAFE, SECURE, ENVIRONMENTALLY COMPATIBLE, AND SUSTAINABLE PRODUCTION, DISTRIBUTION, AND USE OF ITS MISSION CHEMICALS.

*CI'S MISSION CHEMICALS: CHLORINE, SODIUM AND POTASSIUM HYDROXIDES, SODIUM HYPOCHLORITE, THE DISTRIBUTION OF VINYL CHLORIDE MONOMER (VCM), AND THE DISTRIBUTION AND USE OF HYDROGEN CHLORIDE.

Antitrust Guidelines for CI Meetings

The following provides participants in Chlorine Institute meetings with the most general principles of antitrust laws. The many different situations in which the antitrust laws may be implicated are not covered by this document. Any questions about the possible risks of antitrust liability should be referred to Institute counsel.

DO

- Have meeting agendas and minutes of meetings involving potentially sensitive issues approved by counsel prior to each meeting and before distribution.
- Fully describe in the minutes all actions taken at the meeting. Consult counsel on any matter with antitrust implications.

NEVER

- Agree, discuss or exchange with competitors information on product prices; methods of quoting prices; the establishment of uniform costs and markups or price differentials; or the submission of collusive, noncompetitive rigged bids. These activities have been found to constitute direct price-fixing.
- Agree or discuss with competitors methods of restricting price advertising; the use of specified accounting methods; limits on production or the establishment of quotas; fixing minimum product quantities sold; or fixing the amount of basic ingredients used in or resulting from production. These activities have been found to constitute arrangements indirectly affecting price.
- Agree to exclude, refuse to deal with, or retaliate against existing members of the association, potential new members of the association, or particular classes of suppliers or customers.
- Make any arrangements to divide the marketplace or allocate customers.
- Agree to consider excluding from guidelines or recommendations any products, services or equipment which may be safely used for the intended purpose.

CALL FOR PRESENTERS!

2026 CI ANNUAL MEETING, TECHNOLOGY SYMPOSIUM AND TABLE-TOP EXPO

Have an idea to present a safety, security, and/or technology topic at CI's 2026 Technology Symposium and Table-Top Expo? Send your abstract by October!

**HOUSTON, TX
MARCH 23-26, 2026**
