What people are saying about Jason Stoughton . . .

"From the first day I met Jason I knew he was destined to do great things...he touched my heart over the years as he sees the good in all and makes a difference in all that he does. If you have not heard him speak, what are you waiting for???" – Amy J. Holt

"Jason is a game-changer leader! When you are in his presence you know you are with a giant thinker. A passionate individual who leaves nothing on the table when it comes to making an investment in another human being. Jason has a servant's heart. He always focuses on helping others become successful, more intentional and more impactful. My only regret is that he didn't come into my life sooner. My life has been greatly impacted because of his commitment to excellence, his dedication to our industry and his drive to take his teams to the next level. Jason makes us all better people. He challenges us to give more, dig deeper and bring others along with us. I appreciate his "genius zone" and would encourage you to spend an hour with Jason. Your life will NEVER be the same. You will leave thinking, "Wow, that's a person whose head, hands and heart are aligned!" – Dr. Debbie Phillips, Principal and Founder - The Quadrillion

"I have had the distinct pleasure of knowing and working with Jason in his leadership development journey. Jason has the unique ability to connect with people whether that is on a one-on-one basis, in a small group, or on a large stage. His energy is contagious and even when he is not physically well, Jason is the consummate professional speaker and facilitator. True professionals perform when the time calls for it, whether they "feel" like it or not. I witnessed him facilitate a leadership development assessment session when he was sick recovering from the flu and could not have been more impressed. Jason was "on" when the time came and brought his "A-Game" that would blow most out of the water - no one in the assessment he facilitated had any idea that he was physically sick. Jason is a lifelong student of leadership and personal development with the veracity and depth parallel to being on a doctoral level. Currently holding a Ph.D. in Organizational Leadership I can speak with authority as to that statement and to the level and depth of study that Jason brings to his lifelong journey learning and sharing what he has learned about Leadership. I cannot recommend Jason highly enough to speak, train, or facilitate at your organization. He is a true professional. If you have any questions regarding Jason please reach out to me via Inmail and I would be glad to discuss further." – David Miles, Ph.D
