NEWS ON TAP

VOLUME 37, NUMBER 4, JULY/AUGUST 2023

Two New Wells Increase Capacity and Reliability for Mesa Water's Abundant Water Supply

Mesa Water District (Mesa Water) recently completed one new potable (drinking) water well and another is set to come online later this summer, both which will increase local groundwater production capacity. Croddy Well 14 and Chandler Well 12 will be Mesa Water's largest producing wells - each pumping approximately 4,000 gallons per minute of local, clean, safe water, and adding more than 50% to the community's water supply. A new pipeline connects the two 1,000-foot deep wells to Mesa Water's distribution system.

"One of our Board's top priorities is to invest in and renew our infrastructure with capital improvement projects like this to ensure water reliability," says Mesa Water General Manager Paul E. Shoenberger. "The new wells allow Mesa Water to continue to meet our service area's water demand."

It's been 23 years since Mesa Water brought a new well online. The district now has nine wells to serve the community. The construction of Croddy Well 14 was partially funded by a \$1.6 million grant to help improve regional water supply reliability. The funds were part of a California Department of Water Resources \$55 million multi-year grant, awarded to several water agencies.

Community Quenches its Thirst with Mesa Water for 5 Cents a Gallon

Did you know that Mesa Water has a drinking water vending machine outside our headquarters at 1905 Placencia Avenue? The popular, convenient water dispensing machine is open to the public. Come by and fill up your reusable water jugs for just five cents a gallon of 100% local high-quality water. The water can be dispensed in one, three and five gallon increments.

At just five cents a gallon, it's a lot less than the cost of vending machine water elsewhere, and it's less than buying bottled water and more environmentally-friendly. Rest assured your water is clean and safe and you can drink it straight from the tap or Mesa Water's vending machine!

BY THE NUMBERS

- 2017 VENDING MACHINE INAUGURATION
- 70,000 GALLONS OF WATER DISPENSED ANNUALLY
- 24 HOURS A DAY, AVAILABLE FOR YOUR CONVENIENCE
- 8 GLASSES OF MESA WATER RECOMMENDED PER DAY

We're dedicated to serving you!

Welcome to Mesa Water District! I am Director Marice H. DePasquale, your elected representative on the Mesa Water Board of Directors and I'd like to welcome you to the neighborhood.

When you turn on the faucet, you will be receiving 100 percent local, safe, and reliable water. Mesa Water provides the highest quality water to Costa Mesa, some parts of Newport Beach and unincorporated parts of Orange County, including John Wayne Airport. We're also one of Orange County's most efficient water agencies.

To learn more, please visit [MesaWater.org](https://www.MesaWater.org). Also feel free to contact our friendly customer service team, **Monday-Thursday, 7:30 a.m. to 5:00 p.m. and Friday 8:00 a.m. to 5:00 p.m. at 949-631-1200.**

Thank you!
