

Introducing Virginia Mobile ID

*A modern tool to make Law Enforcement
Officers' job faster, safer and more secure*

DEVELOPED WITH LE INPUT

- Designed with direct input from DMV's Law Enforcement Division and Virginia State Police
- Built to meet real-world needs of LEOs

ENHANCED SECURITY

- Directly linked to DMV records providing real-time, accurate identity information
- Encrypted Bluetooth communication
- Secure and contactless, with no internet required
- QR code contains no personal data
- No access to other phone data
- No tracking by DMV

IMPROVED OFFICER SAFETY

- Avoids physical handling of phones and IDs
- Fully functional even in areas with poor or no cellular service

FASTER, SAFER TRAFFIC STOPS

- Use the free Virginia mID Verifier app on your department-issued phone
- Scan driver's mID for instant identity verification - no need to handle their phone
- Reduces roadside time, improving safety and lowering exposure to traffic hazards

ENHANCED IDENTITY INFO

- The Verifier app displays all data found on a physical license with useful enhancements
- Prominent display of age under the photo
- High-resolution, zoomable color photo
- Quick-access definitions for restrictions, endorsements, and classifications
- Disqualifying statuses highlighted in red for easy recognition

ALREADY IN USE

- Accepted at TSA checkpoints at more than 230 U.S. airports including six in Virginia

WHY IT MATTERS TO YOU

When your law enforcement agency adopts mID, it will help streamline roadside interactions, reduce fraud risk, and gain faster, more secure access to identity data making your job easier, safer, and more efficient. To request law enforcement training for mID acceptance, contact DMV's mID team at MobileID@dmv.virginia.gov.
