

# Wasena Bridge

Roanoke, VA

## First Round of Public Meetings

**10/4/2018** Wasena  
**10/16/2018** Old Southwest  
**1/8/2019** Mountain View

Goal of these meetings was to introduce the project and solicit input for the design of the bridge. These meetings are held separately because each neighborhood has slightly different needs and perspectives.

Creation of a project website

## Second Round of Public Meetings

**2/7/2019** Wasena  
**2/21/2019** Old Southwest  
**3/5/2019** Mountain View

Goal of these meetings was to present the bridge concept design to each community for further comment. The design is based on feedback received through the public engagement process and the technical design process described in the previous public meetings.

## General Public Meeting

**2/13/2020** General Public Meeting

Presentation of the preferred design alternative for the bridge and the roadway approaches leading to the bridge. The presentation will include preliminary details including materials, colors, textures, and design refinements from the previous meetings.

## Community Goals and Objectives

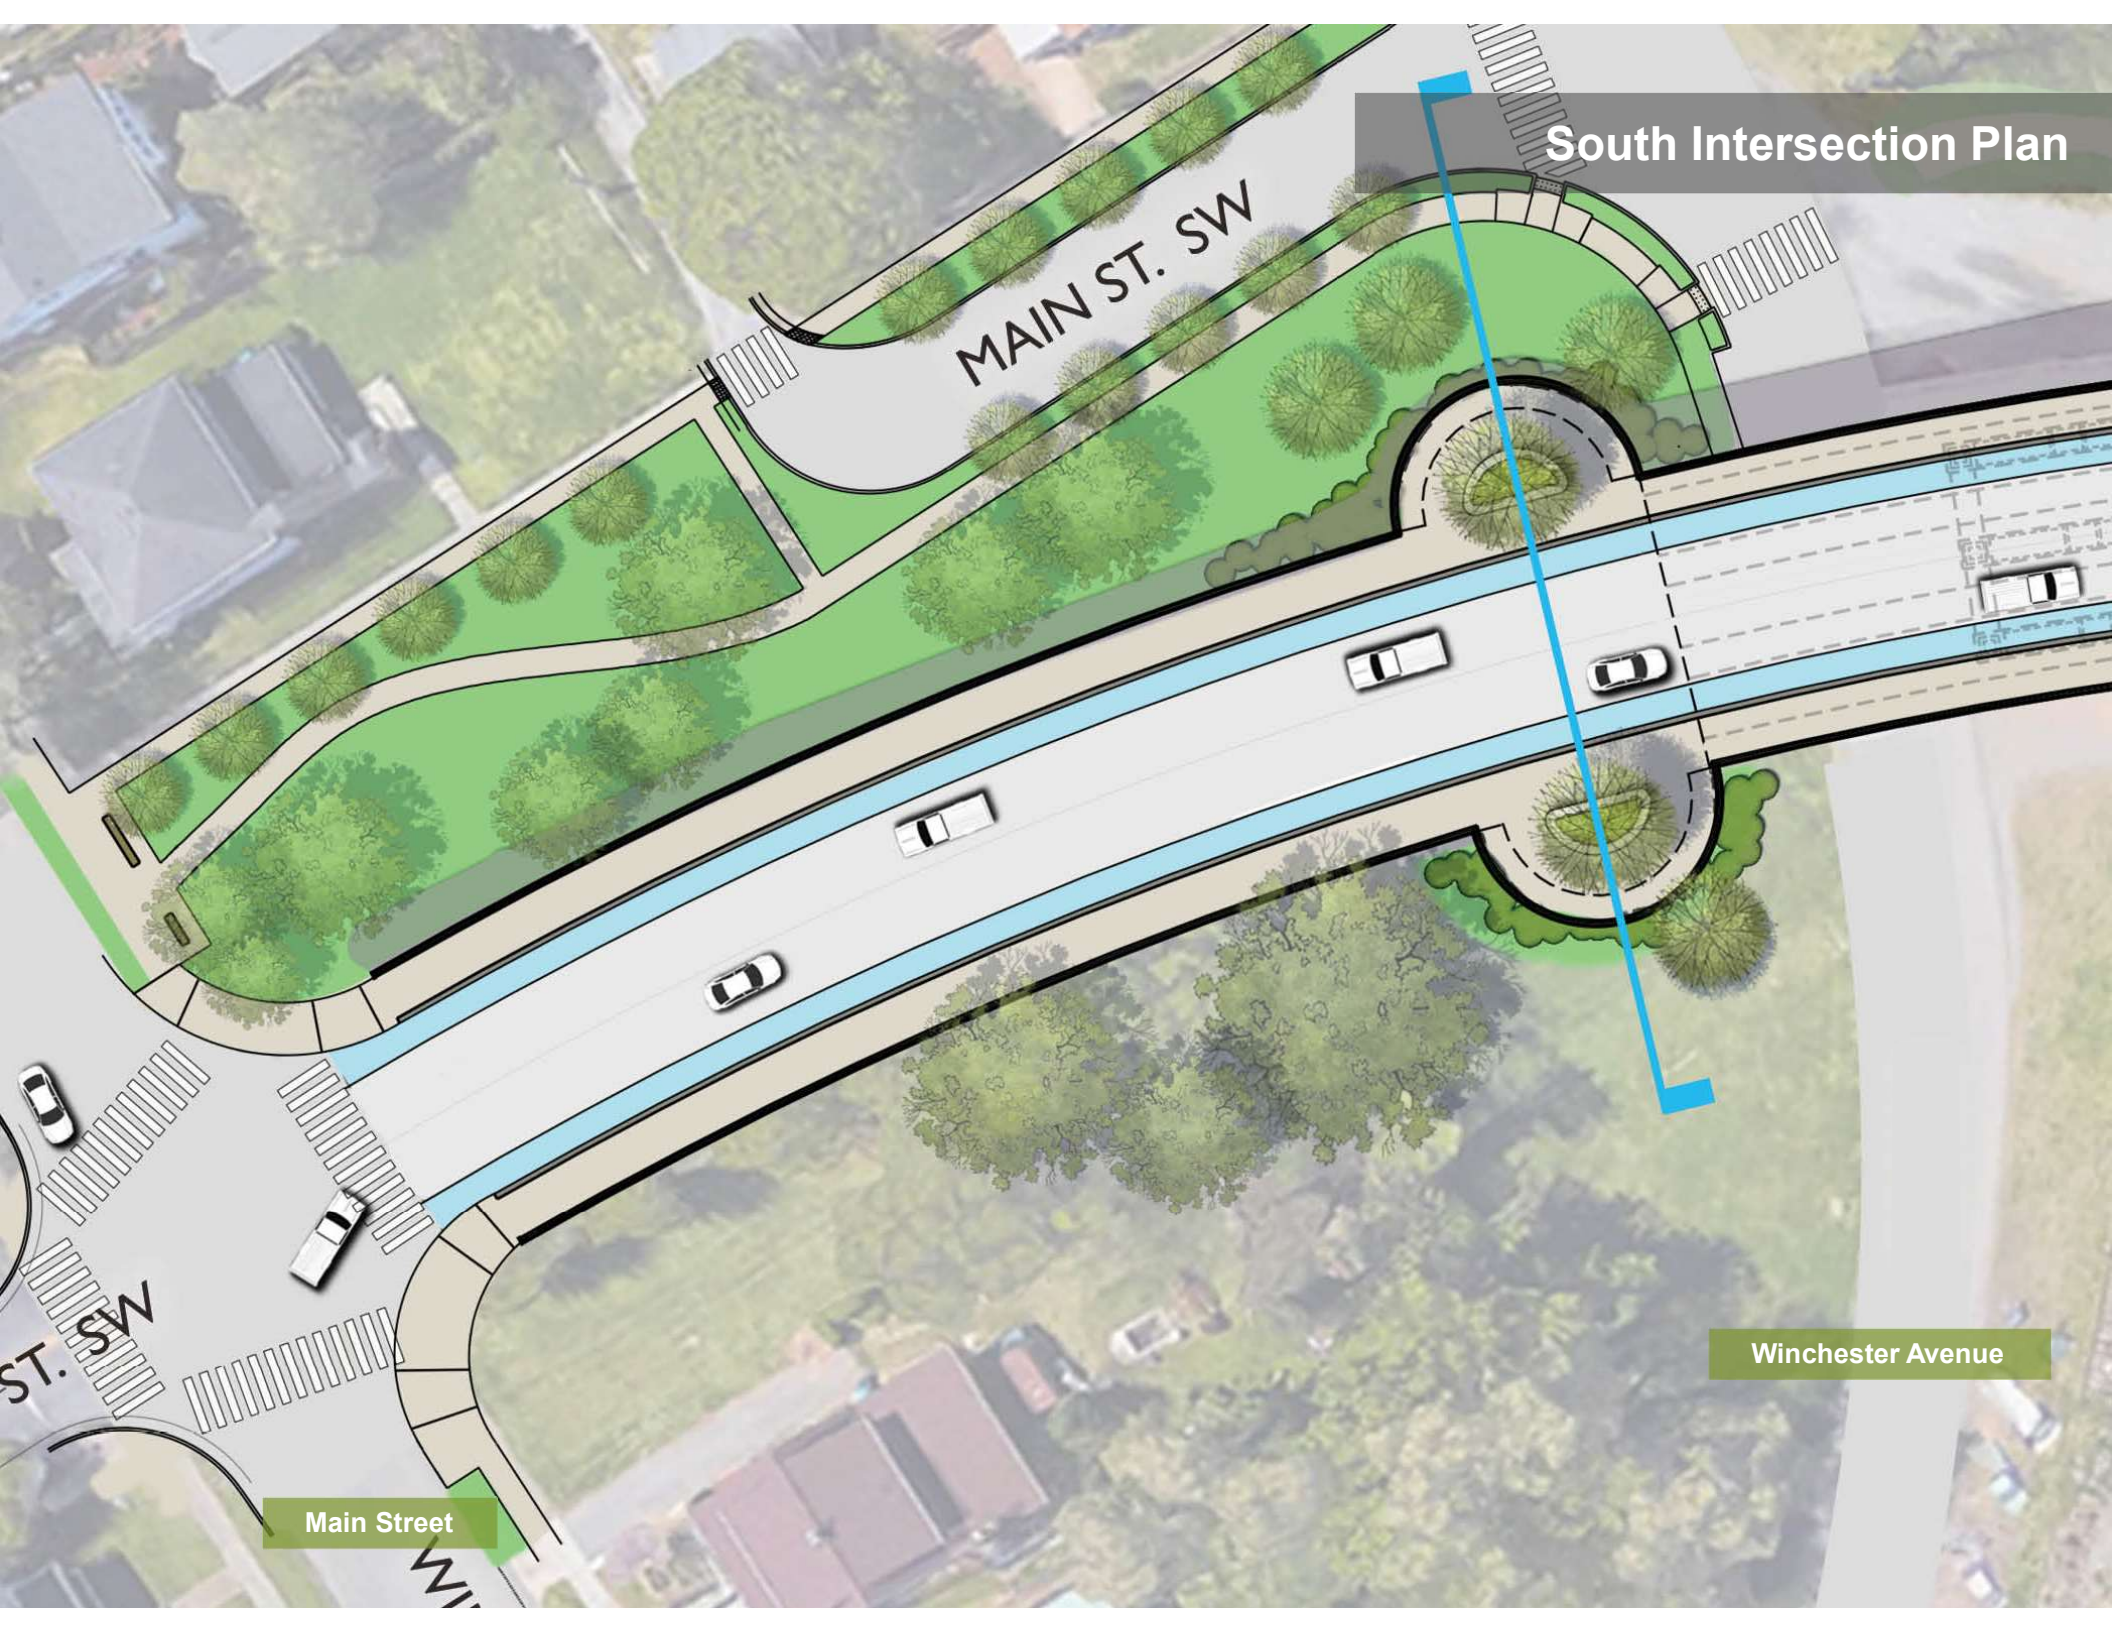

- 1. The new bridge as a beautiful symbol of strength and elegance for the Roanoke Community.**
- 2. Better pedestrian/bike access to the bridge and traffic calming at entrances to the new river crossing.**
- 3. Meaningful and effective separation of transportation modes to create a sense of safety and increase sustainable pedestrian/bicycle use.**
- 4. Preservation and enhancement of views of the mountains and overall landscape.**
- 5. Integration of new bridge into the park area and overall context. Old bridge interpretative panels and attractive overlooks/rest areas along the bridge.**
