- **Thank You!**
- **Local Projects = Statewide Impacts**
  - **37% of the total number of projects across Virginia**
  - **26% of the total construction value across Virginia**
  - **Last year – 165 locality advertised projects**
  - **Last year - \$425 M in value**
  - **Locality projects are mainstream and critically important**

## 2020: A Year We Will Never Forget

- **While different, there were many successes**
  - Continued to deliver our services
  - Ensured the safety of our workforce
  - Implemented telework where possible
- **We continued to move forward**
  - Advertising + awarding projects
  - Hiring consultants

***We kept our foot on the gas pedal, all while facing a \$1.8 billion shortfall***

# Long-term Impacts to Transportation Revenues from COVID-19

- ❑ **December forecast updated expected impacts to revenues and provided the first insight for the full 6-year programming window**
- ❑ **Annual reduction anticipated to be an average of \$230M from FY 2023 to FY 2027**
- ❑ **Total reductions of \$1.8B from FY 2021 to FY 2027 when compared with the post-2020 session figures**
- ❑ **With reductions, Omnibus is still expected to generate ~ \$200M/year for new transportation spending in FY 2024**

# Upcoming Construction Projects

## Local Program Overview (cont.)

**Currently, 147 localities across the Commonwealth are managing a state and/or federally funded transportation project**

**>1,000 active local projects**

**VDOT Project Coordinators can manage 40 plus projects at a time**

# VDOT and Locality Expectations

## The Federal Perspective

- VDOT has an oversight (and stewardship) requirement when federal funds are being utilized; VDOT is responsible to ensure that localities have “adequate resources and sufficient accounting procedures” to manage federally funded projects (23 CFR 635.105 (a))
- Localities are required to provide sufficient construction inspection to ensure project is constructed in accordance with contract specifications & plans (23 CFR 635.105(c))
- Localities must provide a government employee to be “responsible charge” on the project (23 CFR 635.105(c)(4))
- While the tasks can be completed by local governments, certain responsibilities cannot be completed deferred/delegated to Localities

### Upcoming Webinars:

#### ***Transportation Alternative Applicant Webinar***

The Local Assistance Division will be holding a Transportation Alternatives (TA) Applicant Workshop on **Wednesday, April 14th from 10am-noon**. The webinar will review program eligibility, the application process, and scoring criteria.

The TA Applicant Workshop is strongly recommended for localities and other project sponsors that are interested in applying for FY 2023/2024 federal Transportation Alternatives (TA) funding. In addition to local governments, schools, regional park authorities, federally recognized tribes and federal natural resource agencies are eligible to apply.

# **Local Improvements ... VDOT Improvements**

## **Doing What you Plan ... Setting Realistic Expectations**

- **Project Funding Applications will be more thoroughly reviewed for adequate budget and schedule, Inflation will be factored into Financial Section of Applications**
- **Baseline Local Project Schedules were revised to provide for more equitable time-frames this Fiscal Year**
- **Final Schedules and Estimates are baselined at end of scoping activity – Localities establish the schedule they will be measured on!**

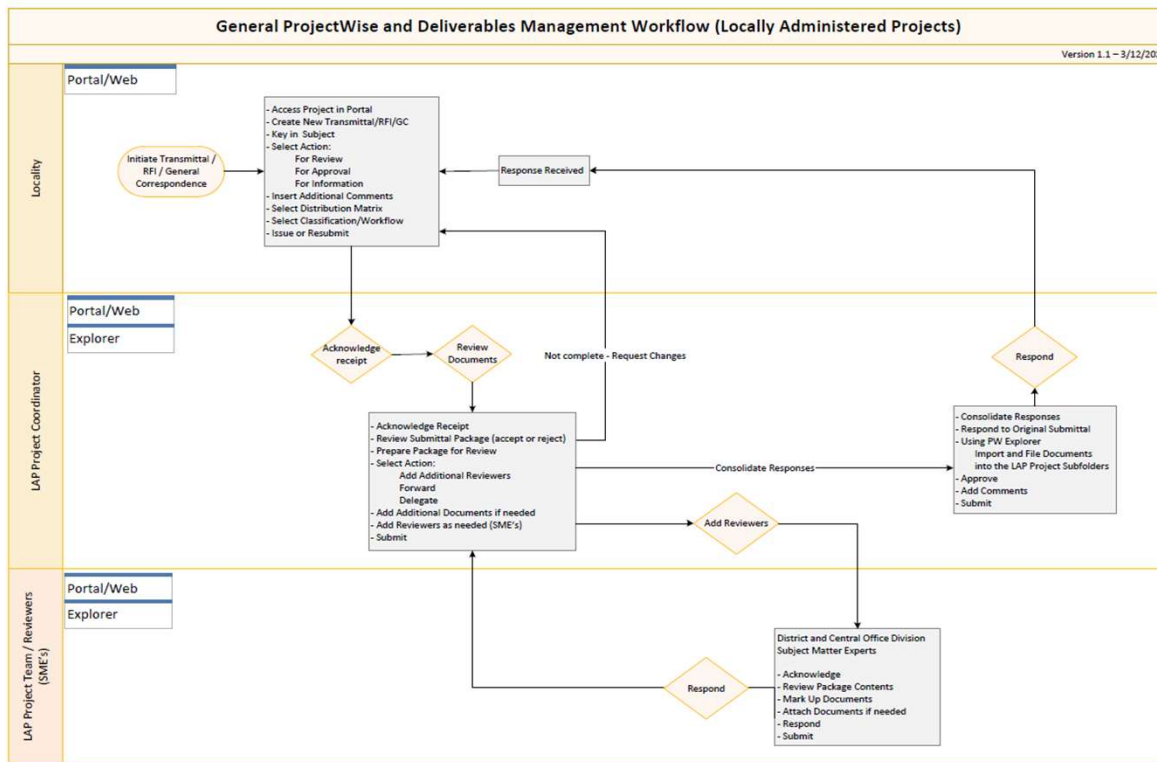

# Project Performance & Dashboard Metrics

- **Scoping reminder emails**
  - **Emails sent monthly to LPA Project Manager and District Project Coordinator for:**
    - Upcoming planned scoping dates
    - Past due scoping date
- **Updating PWA schedule**
  - **Recently updated schedule templates**
  - **Before closing the scoping activity, remember to reevaluate your schedule and estimate**

# Improved Internal Processes – Project Documentation

- **VDOT needs improved coordination for locally administered projects including:**
  - Replacement for emails
  - A method for localities to retrieve project information from VDOT's systems
  - Methods to provide automated updates on status of approvals and reviews to the localities and VDOT staff
  - Automated workflow/ document management system which allows document transfers between localities and VDOT with automatic system notifications of submittals and approvals

# Improved Internal Processes - ProjectWise Deliverable Management System

- Allows localities to submit information through a portal and track the progress of the review
- Improves visibility and accountability of project submittals
- Currently in testing phase with two districts
- Target statewide rollout – March 2022
