

AVIATION FOR GIRLS

Youth Programs!

AFG Connect News

Look out for this bimonthly news broadcast for juniors, by WAI junior members! *Aviation for Girls Connect News* is WAI's way of delivering youth content in a fresh and exciting way. *AFG Connect News* features shoutouts to celebrate junior members who have received STEM awards, completed discovery flights, written tests, solos, licenses, and other accomplishments. Each newscast will showcase an aviation pioneer to emphasize our rich history, WAI stats and events, general aviation and aerospace news, career role models to inspire you, and more. The best part is, we want junior members to help deliver our news! Are you interested in being an *AFG Connect News* anchor? Email Annie Stikeleather at astikeleather@wai.org.

AFG Engage E-Learning

WAI invites junior members to join our new bimonthly e-learning sessions. These free thematic online events will be hosted by WAI staff and feature an aviation or aerospace activity and a guest specialist. Meet scientists, balloonists, pilots, and engineers. Create airplanes, rockets, and slime! Engineer moving sculptures and airfoils. Each *AFG Engage* will be one hour long to provide opportunities to learn about aviation careers, aerodynamics, flight rules, engineering principles, and more. Meet new role models and peers to inspire your aviation journey. Join us for *AFG Engage* to build our Aviation for Girls crew! Dates, registration, and required materials will be posted on the AFG app.
