

Girls IN AVIATION DAY

A Women in Aviation International™ Event

12TH ANNUAL GIRLS IN AVIATION DAY SEPTEMBER 19, 2026

Women in Aviation International launched its first Girls in Aviation Day more than 10 years ago to spark an interest in aviation in girls ages 8 – 18.

Girls in Aviation Day is celebrated at airports, FBOs, museums, and hangars in countries across the United States, Canada, Europe, Africa, and Asia.

Last year, more than 42,000 youth in 34 countries participated in 200 Girls in Aviation Day events. The events introduced girls to aviation and aerospace through STEM education activities, career panels, visits to airports, up-close interaction with real airplanes, and learning activities about aircraft engines and avionics.

These youth education events are designed to ensure aviation's next generation workforce continues to expand.

But Girls in Aviation Day is just one part of a comprehensive STEM education program. Aviation for Girls includes free WAI Junior membership for ages 5–15 and year-round resources such as the free Aviation for Girls app, our *Aviation for Girls Connect News* and *Aviation for Girls Engage E-Learning* programs, *Aviation for Girls* magazine and our Career Guide, which illustrates the many careers girls can choose from in aviation and aerospace.
