Changing the Face of Aviation

Moderator:  
Rene Bangelsdorf

The FAA established the Women in Aviation Advisory Board to develop recommendations to create more opportunities for women to pursue a career in aviation as well as retain that talent. Have you developed your profile on LinkedIn? How are you looking for jobs? Did you know you could request informal information interviews with prospective employers? This session is aimed at equipping you to put your best foot forward in your quest for your next job, or movement in your career. Your resume is your first impression—let's make it a great one!

I am pursuing my leadership coaching certification and have been working with women in aviation consistently on developing themselves as leaders. In this session/workshop, I will have attendees work together in small circles using a guided exercise that will help them address their own challenges and leadership goals in a supportive way.

### Use Your Setbacks to Fuel Your Comebacks

Presented by Sandra Radcliffe

## Cornelia Clark Fort

Cornelia Clark Fort earned an instructor's rating in March 1941, and became Nashville's first female flight instructor and the only one in Tennessee at that time. She became famous for being part of two aviation-related events. The first occurred while conducting a civilian training flight at Pearl Harbor on December 7, 1941, when Cornelia was the first U.S. pilot to encounter the Japanese air fleet during the attack on Pearl Harbor. She and her student narrowly escaped a mid-air collision with the Japanese aircraft. The following year, Cornelia became the second member of the Women's Auxiliary Ferrying Squadron (WAFS), one of the two programs that joined to form the Women Airforce Service Pilots (WASP). She was stationed at the 6th Ferrying Group base at Long Beach, California, and on March 21, 1943, became the first female pilot in American history to die on active duty. While flying in formation en route to Love Field in Dallas, Cornelia's left wing of her BT-13 was

struck by the landing gear of flight officer Frank Stamme Jr.'s airplane. She went into an irreversible dive and crashed 10 miles south of Merkel, Texas. Cornelia was portrayed in the film *Tora! Tora! Tora!* and the Cornelia Fort Airpark in East Nashville is named after her.

## Capt. Rosemary Bryant Mariner, U.S. Navy (ret.)

Capt. Rosemary Bryant Mariner, U.S. Navy (ret.) (deceased) earned her private pilot certificate on her 17th birthday. She was the first woman admitted to the Purdue University Professional Pilot program, and after graduation was selected in the first group of eight women to train as naval aviators in 1973. Rosemary received her Navy wings of gold in June 1974, and became the first military woman to qualify in a tactical jet aircraft, the A-4 Skyhawk, in 1975. The following year, she broke another barrier, becoming the first female naval aviator to fly the A-7E Corsair II. Rosemary continued to add many "firsts" to her accomplishments, including the first Navy woman to fly the vintage F-86, the first woman aviator to qualify as a surface warfare officer, and the first military woman to command an operational aviation squadron. She flew over 3,500 flight hours and 17 carrier landings and was awarded the Defense Superior Service Medal among many other awards in her naval career. Rosemary passed away at age 65 and was honored by the Navy with a four F/A-18F aircraft fly-over at her funeral in East Tennessee.

## Col. Peggy A. Phillips, U.S. Air Force (ret.)

Col. Peggy A. Phillips, U.S. Air Force (ret.) was the first woman selected by the 702nd Military Airlift Squadron to attend undergraduate pilot training. After graduating in April 1981, UPT Class 81-05, Peggy returned to McGuire Air Force Base, New Jersey, to fly the C-141 Starlifter. She upgraded to aircraft commander in minimum time, and then became an instructor pilot, flying global missions. She then rose to be the first female C-17 squadron commander and served over two years during Operation Iraqi Freedom. After logging over 5,200 hours, including 240 combat hours, she was promoted to the rank of colonel and transferred

to the Tactical Airlift Command Center, where she fulfilled the role of senior director of operations for five years. During that tenure, Peggy became the first female reserve pilot to serve as director of mobility forces supporting the Katrina operation. Serving for 30 years as an Air Force Reserve officer, Peggy retired from military service in 2010. A recipient of numerous service medals, Peggy is also a charter member of Women Military Aviators and a WAI Lifetime member.

THURSDAY, MARCH 17

### WAI Chapter Leadership Workshop

Sponsored by JetBlue

8-11 a.m. • Canal A

This session will include a discussion on the most common challenges faced by WAI chapter leaders, WAI chapter management tools, and WAI chapter operational ideas. The session will also include an interactive workshop to help chapters find ways to increase chapter membership and membership engagement. An update on chapter programs, resources, and opportunities will also be included. If you're a chapter leader, this event will be packed with information and useful tools that you do not want to miss.

THURSDAY, MARCH 17

### Build Chapter Partnership—Fundraise Like a Pro

Sponsored by Go Rentals

2:30-4 p.m. • Canal E

Presented by Lyndse Costabile, FunD Av Consulting, LLC and Trissy Pickett, Go Rentals

In its 12th consecutive year, Lyndse is shaking up this interactive, engaging session to give you the tools to deliver a solid corporate partner program within a WAI professional or collegiate chapter, or maybe you run a small aviation organization looking to revamp your entire fundraising outfit. Great! You've come to the right session. Be ready to laugh, gain insights, take lots of notes, converse with your peers, and really see how best to approach prospects to secure gifts meaningful to both your cause and the donor's philanthropic—even corporate giving—goals.

Different than previous years, this year the session will introduce "coming to the table" with shared perspectives by two-year session sponsor, Go Rentals. Also in this session, we will cover proper ways to identify, cultivate, engage, steward and retain corporate partners, and plan your annual fundraising strategy. Participants will leave the workshop understanding the steps needed to create a solid case for support to communicate in securing financial support, with a focus on setting yourself apart from a competitive fundraising market. Lyndse will even walk participants through IRS rules and guidelines governing the nonprofit industry, specifically 501(c)(3) entities. As veteran attendees recall, this is also a "gift giving" session. Attend to find out why!
