

MED CART MYSTERY ESCAPE ROOM

Pharmacy and Medication Cart Compliance

The Med Cart Mystery Escape Room is an interactive, scenario-based training that helps assisted-living professionals strengthen pharmacy and medication-cart compliance through realistic, hands-on challenges aligned with Wisconsin DHS 83, 88, and 89 regulations.

This session focuses on:

- Core medication-management requirements, including labeling, storage, expiration control, documentation, and controlled-substance handling.
- Common survey deficiencies and how to respond accurately in real-world inspection scenarios.
- Daily workflow practices that support survey readiness and resident safety.

By the end of the session, participants will leave with practical strategies to reduce compliance risk, improve medication safety, and approach surveys with greater confidence.

MED CART MYSTERY ESCAPE ROOM SCORECARD

Welcome to the Med Cart Mystery Escape Room! Your goal is to complete 5 stations that simulate real-world medication cart and pharmacy compliance challenges in Assisted Living Facilities in Wisconsin.

Instructions:

- 1. Complete each station's challenge.
- 2. Collect a code word from each station.

Goals:

- Collect all five code words before the time runs out (45 minutes) to avoid citations from the surveyor!
- Work together as a team.
- Use your knowledge of DHS regulations and medication management best practices.
- Ask the facilitator if you need clarification

Good luck, and may your cart stay citation-free!

Station	Code Word	Presenter Initials
Station 1: The Label Lab		
Station 2: Fridge Fiasco		
Station 3: The Expiration Hunt		
Station 4: Documentation Disaster		
Station 5: The Controlled Chaos		
Audit Result:	PASS / FINED
