Welcome

Welcome to the City by the Bay for the 100th Annual Conference of the Western Economic Association International

San Francisco has always been an appealing location for the WEAI meetings. This year should be no different. The conference is organized to provide a collection of special featured sessions, a keynote address, the Presidential address, several opportunities to gain insights into professional development, and more. An important outcome of participating in a conference is not only to obtain insights from the organized sessions on the latest research but to informally connect with your network and to meet new colleagues or potential research collaborators. Your active participation in the conference is the foundation to move the profession forward toward a more complete understanding of the complexities of the challenges facing the world today.

We look forward to an exciting and dynamic conference!

Plan to attend these featured sessions:

Presidential Address and Annual Business Meeting

- [162] MERGERS AND MONOPOLIES: ECONOMICS IN ANTIRUST ENFORCEMENT

Institutional Membership Benefits and Objectives

For academic institutions, research, government, and other organizations that share WEAI's educational objectives

Benefits to Institutions

Recognition. Institutional Members are listed prominently on WEAI's website, in conference programs, in a display at the Annual and International Conferences, and in all relevant marketing materials.

Designated Representatives. Each Institutional Member chooses one to five designated representatives—depending on membership category—to help maintain liaison between its affiliates and WEAI. These representatives receive complimentary Annual and International Conference registration, as well as online subscriptions to both journals and all other benefits accorded to individual members.

Job Market. Institutional Members may use WEAI's e-newsletter or website without charge to advertise job openings for economists.

Gift Memberships. Academic Institutional Members can congratulate new MA/MS and PhD graduates with a complimentary online one-year WEAI membership.

Benefits to Affiliated Economists

20 percent discount on Annual and International Conference fees and journal manuscript submission fees.

Complimentary conference registration for Annual and International Conference session organizers who are WEAI members.

Benefits to Students

20 percent discount for individual students compared to regular student dues and conference fees.

Graduate Student Workshop is open to students of Institutional Member universities. Academic and Sustaining may nominate two students; Supporting, three students; Sponsoring, five.

Undergraduate Student Research Program is available only to Institutional Member universities, outstanding undergraduate economists may be selected to present their research in a special undergraduate research session on the Annual Conference program with prizes awarded for best paper plus three finalists.

STUDY ECONOMICS IN SAN FRANCISCO!

In the San Francisco Bay Area, new technologies are altering the way people live and work throughout the world. New marketplaces and platforms created here are fundamentally changing interactions between consumers, businesses, nonprofits, and governments. As a next-generation economist with an MS in Applied Economics (MSAE) or International and Development Economics (IDEC), you will gain the skills to take a leadership role in this dynamic environment.

MS IN APPLIED ECONOMICS (MSAE) PROGRAM HIGHLIGHTS

ECONOMICS FOR THE DIGITIZED AGE: Study market design, reputational systems, auction theory, pricing, behavioral economics and other concepts essential to understanding and shaping the new economy.

PRACTICAL PROGRAMMING AND DATA SKILLS:

Learn to work with your data using major programming languages Python and R from your first semester and build these skills throughout the program.

DATA ANALYSIS: Courses in experimental design, machine learning and econometrics take you beyond description and correlation to understand causal processes and economic mechanisms.

MS IN INTERNATIONAL AND DEVELOPMENT ECONOMICS (IDEC) PROGRAM HIGHLIGHTS

LEADING-EDGE ANALYTICS & ECONOMETRICS:

Master the latest programming languages, data acquisition, and econometric techniques that are widely used by practitioners for program evaluation and enhancement.

GLOBAL DEVELOPMENT & ECONOMIC POLICY:

Study the methods of behavioral economics. Explore the impact of climate change, health, environment, and gender on economic policy in developing countries.

GUARANTEED FIELD RESEARCH IN DEVELOPING COUNTRIES:

Guidance and support on field research and thesis study from full-time faculty.

[085] THE HIDDEN CURRICULUM: EVERYTHING YOU WEREN’T TAUGHT IN GRADUATE SCHOOL ABOUT DOING APPLIED RESEARCH

Featured Speaker: D. Mark Anderson, Montana State University Bozeman

This workshop is intended to be a practical guide for graduate students doing applied research. In it, we will provide tips on how to start a research project, when to switch topics, and how to effectively manage multiple projects at once. We will also provide practical advice on how to write an applied economics paper and guide participants through the publication process.

[125] PART 1: BUILDING A REPLICATION PACKAGE FROM DAY 1 - PRACTICES AND DOCUMENTATION
Featured Speaker: Lars Vilhuber, Cornell University

Journals require that you share your code and data in a replication package upon acceptance. However, efficient reproducibility starts at the beginning of the research project. Following some best practices can not only help you prepare a replication package later but also make you a more productive researcher. In this workshop, we start with an empty folder and demonstrate methods to keep your project reproducible from Day 1. For advanced topics, see Session 2.

[200] PART 2: ADVANCED TOOLS TO BE REPRODUCIBLE, AND CHECK IT TOO

Featured Speaker: Lars Vilhuber, Cornell University

We describe possible steps to self-check replication packages before submitting them to a journal. It is not meant to be exhaustive, and it is not meant to be prescriptive. There are many ways to construct a replication package, and many more to check that it works. Questions from the audience are encouraged. Participants are encouraged to also attend Session 1.

REVIEWS OF
ECONOMIC LITERATURE

ANNOUNCING A NEW OPEN ACCESS ECONOMICS JOURNAL

REVIEWS OF ECONOMIC LITERATURE

Reviews of Economic Literature (REL) is pioneering the return of scholarly publishing to the academy on a globally equitable basis. With the support of libraries, it is able to offer open access with no fees for authors or readers.

REL will publish in the areas of economics, econometrics, economic history, financial economics, business economics, and accounting.

The editors invite and encourage economists to consider preparing syntheses of recent research, bibliometric reviews, meta-analyses, and other forms of coverage for all aspects of the economic literature for submission to REL. Prospective authors are invited to register and submit work at <https://rel.journals.sup.org/index.php/rel/about/submissions>.

*Editorial Board**Iris Claus, University of Waikato**Pascal Courty, University of Victoria**Les Oxley, University of Waikato and Curtin University**Roberto Veneziani, Queen Mary University of London**Editor Statement:*

"We envision *Reviews of Economic Literature* as part of a movement to restore scholarly publishing to the priorities and values of the academic community. Open access as implemented by commercial publishers has, we believe, led to unintended consequences that serve neither researchers, academic institutions, policy makers, nor society in general. REL is a nonprofit, academic led, open access publication, free for authors and readers, with content immediately available upon publication."

PUBLICATIONS

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There is no text or other markings on the paper.

Submit Your Paper to CEP or EI for

FREE!

After incorporating the feedback you receive at the conference, you are invited to submit your revised conference paper for possible publication in either *Contemporary Economic Policy* or *Economic Inquiry* for **FREE**, provided you submit by December 31, 2025, and are a current or newly joining WEAI member.

CEP publishes scholarly research and analysis on public policy issues of vital concern to government, business, and other decision makers. A principal objective is to present high quality economic analysis in a language accessible to policymakers and other non-specialists without compromising analytic rigor.

EI publishes articles dealing with all topic areas of economics. The primary objective is to make each article understandable to economists who are not necessarily specialists in the article's topic area.

If you feel that your conference paper is ready for serious review for possible publication, we encourage you to submit!

Visit weai.org for more information. Presenters will receive an email after the conference with further details.
