Welcome!

As WEAI moves into our second century of conferences, the beauty of the Rocky Mountains as a backdrop provides us with the inspiration to create the best conference experience to present our research, learn from each other, engage in constructive debate, network with friends and colleagues, as well as make new connections! The opportunity for researchers to share their insights and receive constructive and useful feedback has been our goal for the last 100 years and will continue to guide our efforts into the future as we fulfill our mission to disseminate economic insights. During such challenging times, it is important that a dialogue based on solid academic research continues to be available for policymakers, business leaders, and others.

We are excited to welcome you to Denver and our 101st Annual Conference!

Plan to attend these featured sessions:

Presidential Address and Annual Business Meeting

- [113] TOWARD THE POST-MODERN WORLD ECONOMY

Institutional Membership Benefits and Objectives

For academic institutions, research, government, and other organizations that share WEAI's educational objectives

Benefits to Institutions

Recognition. Institutional Members are listed prominently on WEAI's website, in conference programs, in a display at the Annual and International Conferences, and in all relevant marketing materials.

Designated Representatives. Each Institutional Member chooses one to five designated representatives—depending on membership category—to help maintain liaison between its affiliates and WEAI. These representatives receive complimentary Annual and International Conference registration, as well as online subscriptions to both journals and all other benefits accorded to individual members.

Job Market. Institutional Members may use WEAI's e-newsletter or website without charge to advertise job openings for economists.

Gift Memberships. Academic Institutional Members can congratulate new MA/MS and PhD graduates with a complimentary online one-year WEAI membership.

Benefits to Affiliated Economists

20 percent discount on Annual and International Conference fees and journal manuscript submission fees.

Complimentary conference registration for Annual and International Conference session organizers who are WEAI individual members.

Benefits to Students

20 percent discount for individual students compared to regular student dues and conference fees.

Graduate Student Workshop is open to students of Institutional Member universities. Academic and Sustaining may nominate two students; Supporting, three students; Sponsoring, five.

Undergraduate Student Research Program is available only to Institutional Member universities. Outstanding undergraduate economists may be selected to present their research in a special undergraduate research session on the Annual Conference program with prizes awarded for best paper plus three finalists.

Institutional Membership Categories

Membership Category	Minimum Annual Dues	Designated Representatives	Discounts on Fees
Sponsoring	\$2,500	5	20%
Supporting	\$1,000	3	20%
Sustaining	\$500	1	20%
Academic	\$450	1	20%

[080] PART 1: BUILDING AND DOCUMENTING A REPLICATION PACKAGE, INCLUDING WHEN DATA ARE CONFIDENTIAL

Featured Speaker: Lars Vilhuber, Cornell University

Journals require that you share your code and data in a replication package upon acceptance. Reproducibility starts at the beginning of the research project, leading researchers to be more efficient throughout. I guide attendees through best practices based on my experience with more than 3000 replication packages. I put particular emphasis on a variety of typical scenarios, including but not limited to confidential data used in the analysis.

[096] PART 2: ADVANCED TOPICS: STRONG REPRODUCIBILITY AND EARLY DATA PRESERVATION FOR TRANSPARENT REPLICATION PACKAGES

Featured Speaker: Lars Vilhuber, Cornell University

I describe both simple and advanced techniques that researchers can use to self-check replication packages before submitting them to a journal. I show methods to demonstrate credible reproducibility and provenance, in particular when data are collected through surveys, from data sources that are hard to obtain, or when computations are long-running and complex. Participants are encouraged to attend Session 1, but it is not a requirement.

**Submit Your Paper
to CEP or EI for**

FREE!

After incorporating the feedback you receive at the conference, you are invited to submit your revised conference paper for possible publication in either *Contemporary Economic Policy* or *Economic Inquiry* for FREE, provided you submit by December 31, 2026, and are a current or newly joining WEAI member.

CEP publishes scholarly research and analysis on public policy issues of vital concern to government, business, and other decision makers. A principal objective is to present high quality economic analysis in a language accessible to policymakers and other non-specialists without compromising analytic rigor.

EI publishes articles dealing with all topic areas of economics. The primary objective is to make each article understandable to economists who are not necessarily specialists in the article's topic area.

If you feel that your conference paper is ready for serious review for possible publication, we encourage you to submit!

Visit weai.org for more information. Presenters will receive an email after the conference with further details.
