

NEO WEB 2026/27 Sponsorship Opportunities

The Worldwide Employee Benefits Network (WEB) is a premier educational and networking forum exclusively serving employee benefits professionals. WEB national and its chapters provide programming presented by local and national experts including lawyers, brokers, plan sponsors and governmental speakers, on topics including qualified retirement plans, health and welfare benefits, global compensation and benefits, executive compensation, and related areas. WEB also provides networking opportunities where professionals can connect with other benefits professionals.
