Join us for an **online event** as we launch our Professional Development Series with a discussion on the roadblocks to accessing professional development. Please prepare for the forum event by listening to *Cashing In on Confidence* with Jamie McKinney from the WiM Learning Series (Link provided with registration). We'll move forward from there to look at what is needed to help you be successful in pursuing professional development, and how can we help each other move forward with confidence.

For more information or registration please contact: Jeanne Elliott at
jmelliott@christyco.com
