1 Most anyone working within the Company as a Full-Time Employee can participate in a Registered Apprenticeship Program (RAP).

2 The (RAP) is a "turnkey structured training program" for any manufacturing occupation.

3 The (RAP) is intended to enhance the employee's ability to grow within their career path.

4 Up to \$4,800 could be available per employee to subsidize Related Technical Instruction (RTI) (150 hours of external instruction).

5 Apprenticeship State Tax Credit of \$4,800 per apprentice.

6 Most manufacturing apprenticeships are 1 year.
