

## Trailblazing Women in Manufacturing: A Panel Discussion

Panelists:

### **Shannon Roe, Assistant Director of the Advanced Manufacturing Sciences Institute (AMSI) at Metropolitan State University of Denver**

Shannon Roe is a mission-driven individual with experience in the nonprofit, private, and public sector. She has a strong affinity for higher education and enjoys helping students succeed in their educational and career goals. Her collaborative leadership style has earned her multiple awards including the 2024 Manufacturing Woman of the Year from the Colorado Manufacturing Network and the 2022 Collaboration Award from the College of Health & Applied Sciences at Metropolitan State University of Denver.

In her role as the Assistant Director of the Advanced Manufacturing Sciences Institute (AMSI) at Metropolitan State University of Denver, Shannon collaborates with leading manufacturing associations such as CAMA and Women in Manufacturing Colorado, as well as a wide range of manufacturing companies, to build the workforce pipeline for Colorado's manufacturing industry.

As Education Director for Women in Manufacturing (WiM) Colorado, Shannon developed a monthly discussion series for early-career manufacturing professionals that focuses on personal and career development topics. She currently serves as Vice Chair supporting the various activities of the organization.

In her free time, Shannon loves hiking, listening to music, reading, and spending time with her family.
